

1. Kliknite Tools -> E-mail Accounts

2. Odaberite Add a new Email Account i kliknite Next.

3. Odaberite POP3 i kliknite Next.

4. Unesite podatke za vašu e-mail adresu.

U polje Your Name upišite naziv zajednice/postrojbe.

Poslužitelj ulazne pošte (**incoming server**) je **mail.vzkz.hr**.

U polje poslužitelj odlazne pošte (**outgoing server**) upišite server Vašeg Internet operatora: za T-Com: mail.t-com.hr, Iskon - mail.iskon.hr, Optima: mail.optinet.hr, Vip - mail.vip.hr, CarNet - mail.cmu.carnet.hr, Bnet - mail.xnet.hr...)

Korisničko ime je jednako Vašoj e-mail adresi.

Test Settings

After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)

5. Kada ste popunili potrebna polja, kliknite na More settings.

Ukoliko imate potrebu čuvati kopije mailova na serveru, na kartici advanced uključite opciju „Leave a copy of messages on the server“, te uključite i opciju „Remove from server after...“, a pod broj dana upišite 5-10 dana (kako bi izbjegli zagušenje zbog ograničenog prostora na serveru), a možete uključiti i opciju „Remove from server when deleted from 'Deleted items'“.

Ako nemate potrebu čuvati kopije mailova gore navedene opcije isključite.

9. Kliknite OK, te možete provjeriti postavke klikom na „Test Account Settings“. Za kraj kliknite Next/Finish.
